**DETAILED ACTION**

***Allowable Subject Matter***

Claims 2-9 and 11-14 are allowed.

The following is an examiner's statement of reasons for allowance:

Liddy et al. do not disclose or suggest the iterative classification and learning processes required by independent claims 2 and 11. That is, with respect to claims 2 and 11, Liddy et al. disclose the word based classification knowledge file is learned from a previously labeled outside source (i.e. a large, representative sample of documents, see column 16, lines 37-39). Liddy et al. provide no teaching or suggestion of using text classified by the classification apparatus as additional learning material for the word based classification knowledge file. Thus, Liddy et al. do not reasonably disclose or suggest using text which has been classified by said text classification apparatus for learning word based classification knowledge, as required by claims 2 and 11.

Claim 6 requires generating a word-based classification knowledge file by extracting information indicative of a relation between a plurality of words from a labeled text in a first language. Liddy et al. disclose the word-based classification knowledge is generated from counts of particular words in a corpus (see column 16, lines 25-39). The word-based classification knowledge file of Liddy et al., therefore, does not extract any information indicative of a relation between a plurality of words from a labeled text in a first language. Thus, Liddy et al. do not reasonably disclose or suggest generating a word-based classification knowledge file by extracting information indicative of a relation between a plurality of words from a labeled text in a first language.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
